

SPOILERS HAVE BEEN REDACTED!

The Unadoptables is one of my favourite books! I'll try to keep it forever.

I LOVE the book The Unadoptables. I love adventure stories just like that. It was a book I couldn't stop reading. Like when you're right in the middle of an exciting part and you're asked to do a job. You're always so reluctant to stop reading.

Sometimes it made me tremble with fear and excitement together. What a great job the author did!

My favourite part of the story was when they were [REDACTED]. It was so exciting! I loved that bit because of their awesome ideas. For example, they used [REDACTED]. That's pretty awesome. They also [REDACTED].

I think that people who love mystery and adventure would love this book. Like ages eight to eleven. That's what I would recommend.

The author did a great job. With everything. And I mean it.
