

I thought the author used good descriptive words in the story and she held my attention throughout the book. I liked the surprise ending.

I liked the book because it is quite different. I didn't really like the start of the book as I thought it was a bit slow. But as I kept reading the book got better and better. In the end I thought it was magnificent!

My favourite character was Lotta because she was really kind to Milou and she wanted to help her find her father. I liked that at the front of the book they had pictures of the characters and the author describes the characters in great detail throughout the book.

I think that girls and boys would both enjoy reading this book. I would recommend this book for anyone over the age of 11 or a younger child that reads at a higher reading level because some of the words were quite hard and there were times when the story became quite scary.

Thank you for giving me the opportunity to read and review this book.
